Agenda

09:30 Annette Dragsdahl, DI, Chair, Metrology Committee

- Welcome and "Since last meeting on the political front".

The Metrology Committee: Status and Strategy

Kaj Bryder, Danish Technological Institute, Chair, DANIAmet

- Since last meeting on the organisational front

Kim Carneiro, DFM Ltd, Metrology Committee

- Since last on the technical front.

Owing to grants from the Council for Technology and Innovation and from EU's 7th frame work programme, Danish Metrology has developed favourably. Results will be presented, ranging from the determination of natural constants to strengthening flow metrology.

10:10 THEME 1: Metrology and Energy

Henrik Weldingh, Dansk Energi, Metrology Committee

- Challenges in electrical metering

Gunnar Østergaard, FORCE Technology, Metrology Committee

- Flow measurements and Energy

11:00 Coffee

11.20 TEMA 2: Metrology supporting Commerce

Hans Peter Hansen, Metrology Specialist, H. Lundbeck A/S

- *Why is metrology important for medical production? Regulation imposes the satisfaction of specific production conditions. Consequences for not meeting these are serious.*

Robert Kaarls, Secretary of BIPM

- *Evolving needs for metrology in trade, industry and society.*

12:30 Discussion, Conclusions

Annette Dragsdahl, DI

13:00 Lunch

Danish Fundamental Metrology Ltd.
